GDP growth rate

1197. SHRI ANAND SHARMA: Will the Minister of FINANCE be pleased to state:

(a) the estimated GDP growth rate during the current financial year 2004-05;

(b) whether the initial surveys of RBI and Planning Commission are indicative of achieving the projected targets of economic growth; and

(c) if so, the steps taken to remove the constraints in achieving targeted growth?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI S.S. PALANIMANICKAM): (a) to (c) The Reserve Bank of India (RBI) in its Mid-Term Review of Annual Policy Statement (October 26, 2004) has placed the overall Gross Domestic Product (GDP) growth in 2004-05 in the range of 6.0 to 6.5 per cent. The Tenth Five Year Plan (2002-07) envisages an average annual growth rate of 8 per cent. So far, there are no specific surveys by the RBI and the Planning Commission on the projected targets of economic growth.

The Government has taken a number of measures to improve the growth prospects of the economy. These, *inter alia,* include a comprehensive policy on credit aimed at doubling the flow of agricultural credit in three years, higher allocations under Accelerated Irrigation Benefit Programme, revival of Rural Infrastructure Development Fund, launching a scheme for repair, renovation and restoration of all water bodies, promotion of public private partnership for infrastructure development, setting up an Investment Commission and additional provision of Rs. 10,000 crore of gross budgetary support to the 2004-05 Annual Plan.
